In this case, PRISMS will cancel the CoE and offer the provider the opportunity to create a new CoE with a new end date. The College doesn’t have to create the new CoE immediately but can wait till the student has notified the College of his/her intended date of return.</li> </ul> |

- (iii) The College notifies the Secretary of DHA via PRISMS as required under section 19 of the ESOS Act, that it wishes to permanently cancel (terminate) the student’s enrolment. Once this process is complete and any appeals made by the student have run their course, the student’s CoE status will be listed as “cancelled.”

Note: Regardless of whether the suspension of enrolment is the result of a student request for suspension or initiated by the College, the period of suspension of enrolment (as entered in PRISMS), should not be included in attendance monitoring calculations.

**Assessment of the Grounds for Deferral, Temporary Suspension or cancellation:**

The College can only approve a deferral, or temporary suspension of a student enrolment on the following grounds:

(a) Compassionate or compelling circumstances.

Compassionate or compelling circumstances are generally those beyond the control of the student, when they have an impact on the student’s course progress or wellbeing. These could include (but are not limited to):

- serious illness or injury, where a medical certificate states that the student was unable to attend class.
- death or illness of close family members such as parents or grandparents
- major political upheaval or natural disaster in the international student’s home country requiring
- emergency travel and this has impacted, or will impact, on the student’s studies;
- a traumatic experience which could include:
  - Involvement in, or witnessing of a serious accident; or
  - Witnessing or being the victim of a serious crime, and this has impacted on the student;
- Where Imagine Education Australia was unable to offer a pre-requisite unit;
- Interviews with the Immigration Department, or Higher Education etc. institution for the purposes of further study would also qualify as compelling reasons for absence.
- Inability to begin studying on the course commencement date due to delay in receiving a student visa.

International students may also defer or suspend their studies with Imagine Education Australia for other reasons; however, the student will be required to provide compelling documentary evidence to support their request. Other reasons for deferment or suspension for compassionate and compelling circumstances may include:

- Requirement to attend a cultural event including weddings and christenings in the students home country
- Requirement to arrange care for children in their home country which requires the student to return to their home country.
- Unexpected hardship in relation to family member.
- Visiting family members overseas whom they have not seen for a considerable time.

Again in the above cases, extenuating circumstances will need to be supported by appropriate evidence of some kind.

(b) Misbehavior by the student.

Misbehavior could include, (but is not limited to):

- Deliberately disruptive/rude to a point where the behavior seriously interrupts the class

This includes future payments as outlined in the agreed payment plan</li> <li>• the student's attendance record</li> <li>• the student's disciplinary and conduct record.</li> <li>• the nature of the compassionate or compelling reasons provided by the student. (Imagine Education Australia reserves the right to deny the request for a reason simply because of financial or work related reasons.)</li> <li>• if an international student, whether or not he/she has breached student visa conditions related to attendance or course progress, and</li> </ul>  |

- any other matters considered relevant.

**A Deferral, Suspension or Cancellation will not be granted by Imagine Education Australia where there are reasonable grounds for refusal.** Reasonable grounds for refusal of a request may include, but not be limited to:

- Where the student visa holder has provided insufficient documentation to support reasons for the request;
- Where Imagine Education Australia deems that the Deferral, Suspension or Cancellation would be detrimental to the student’s welfare, future study, and/or career goals; this may include:
- Where the student has not utilised the full range of support services that are available to assist with academic and personal issues and /or where they have not made a genuine attempt to participate in the Imagine Education Australia courses to which they have been granted admission;
- Where it is believed the student is trying to avoid being reported to the Immigration Department for failure to meet the provider’s attendance, payment or academic progress requirements;
- Where the student has indicated they would prefer to study at another institution with lower fees and/or where the student claims financial difficulty but cannot provide evidence of the suddenness and/or unexpected nature of the difficulty;
- Where it is believed the student is deliberately trying to manipulate the Australian student visa system. For example, where a student accepted an offer to study at Imagine Education Australia, obtained a student visa through Imagine Education Australia’s participation in the Streamlined Visa Processing arrangements, but then seeks to transfer to a non-SVP provider without making a demonstrated effort to pursue their program of study at Imagine Education Australia;
- Where the student has outstanding fees owing to Imagine Education Australia;
- Where the student is not making academic progress as per the Course progress policy

(i) Procedures for Deferment or Cancellation of a Student’s Enrolment, at the Student’s Request:

The College will ask students who request a deferment or cancellation of their enrolment to complete a Deferral Application form, or Withdrawal Application form.

The Student Services Officer will assist the student to complete the letter of request if the student’s English is not good and the student will be asked to sign the application form.

The application will go to the Campus Manager who will decide whether or not to approve the deferment based on the circumstances and any supporting evidence. In some cases, the College Principal will be asked to provide a final ruling.

The Admissions will also notify the student in writing of the College’s decision and advise the student that deferring/suspending/cancelling the enrolment may affect his or her student visa.

The email of the College’s written notification to the student will be saved in the student’s electronic file. The Student’s SMS (Student Management System) database record will also be noted. If the request comes as part of an email notification from overseas to the effect that the student has been refused a visa, or has not received a visa on time to commence the course, a copy of this email will be placed in the student’s electronic file and the student’s electronic records noted accordingly.

## Deferring, Suspending or Cancelling a Student Enrolment POLICY AND PROCEDURE

Note: Where the deferment/temporary suspension is at the student's request, the College must notify the Secretary of DHA via PRISMS as required under section 19 of the ESOS Act, within 14 days of receiving the notification.

(ii) Procedures for temporarily Suspending a Student's Enrolment at the Student's Request:

The College will ask students who request a temporary suspension of their enrolment to complete an Application to Temporarily Suspend Studies.

The Student Services Officer will assist the student to complete the letter of request if the student's English is not good and the student will be asked to sign the application form.

The application will go to the Campus Manager who will decide whether or not to approve the Suspension based on the circumstances and any supporting evidence. In some cases, the College Principal will be asked to provide a final ruling.

If declined, the campus manager advises the student of the outcome via email. SSO updates SMS declined status.

If approved, SSO takes form and payment of admin fee, diary notes in SMS, scans forms and saved to student folder, and forwards forms to Admissions for processing and cc's CANVAS.

Admissions will notify the student in writing via email of the College's decision and advise the student that deferring/suspending/cancelling the enrolment may affect his or her student visa, and to seek advice from immigration on the potential impact his or her student visa.

Admissions will CC. the student's course Trainer and Student Payments to advise them of the approved Suspension so that the Trainer is aware relating to attendance and the SPO is aware relating to suspending Ezi-debit or a Payment Plan.

The email of the College's written notification to the student will be placed in the student's electronic file. The Student's SMS database record will be also noted. If the request comes as part of an email notification from overseas to the effect that the student has left the country prior to the Suspension request, a copy of this email will also be placed in the student's electronic file and the student's electronic noted accordingly.

Admissions will then notify the Secretary of DHA via PRISMS as required under section 19 of the ESOS Act, that the student's enrolment has been deferred, temporarily suspended or cancelled. Admissions will note this information in the student's SMS database record.

Note: Where the deferment/temporary suspension is at the student's request, the College must notify the Secretary of DHA via PRISMS as required under section 19 of the ESOS Act, within 14 days of receiving the notification.

The outcome of any fees refund, or refusal of refund that may result from the deferment will also be noted in the files, along with the results of any appeal that is subsequently made by the student and the written outcome of that appeal.

If the College refuses a student's request to suspend his/her enrolment on compassionate or other grounds, the process will be similarly documented and recorded in detail on the student's file. The student

## Deferring, Suspending or Cancelling a Student Enrolment POLICY AND PROCEDURE

will also be notified in writing of his/her right to access the College's dispute resolution and appeals process and a copy of this notification will be filed in the student's paper file.

(iii) Procedures for Temporarily Suspending/Cancelling a Student's Enrolment for Misbehavior, (instigated by the College), non-payment of fees or non-academic progression:

The decision whether or not to cancel or temporarily suspend a student's COE is made only by the College Principal, in consultation with senior staff and after all evidence has been presented and discussed.

Where the College decides to proceed with the suspension or cancellation, it will inform the student in writing of its intention to report the student to DHA. At the same time, the College will inform the student in writing that he or she has 20 working days to access the College's internal complaints and appeals process as per National Code Standard 10.2.1. To "access" means to initiate or start the appeals process: there is no expectation that the appeals process must be completed within 20 days.

National Code Standard 10.2.3 then requires that the hearing of the complaint or appeal must commence within 10 days of the date of formal lodgment of the complaint or appeal by the student.

The circumstances of the temporary suspension/cancellation will be noted in the student's computer database record and a copy of the letter sent to the student will be placed on the student's paper file.

If the student chooses to access the College's internal appeals process, the College will maintain the student's enrolment throughout this process. To "maintain the student's enrolment" means that the College will not inform DHA of any change to the student's enrolment status through PRISMS during this time. Exceptions to this could be special circumstances involving the welfare of another student or staff member (e.g. threats of physical or sexual assault by the offender.) In these cases, DHA should be notified of the circumstances immediately and they will take whatever action is deemed necessary.

Even though the College maintains the student's enrolment status during the 20 days and any subsequent period of appeal, it does not require the College to continue to provide learning opportunities for the student in cases of serious misconduct.

If the student chooses to access an external appeals process as per the College's dispute resolution policy, the College does not have to wait for the outcome of this process before notifying DHA of any change to the student's enrolment status, through PRISMS.

Once the appeals process is complete, or is not taken up by the student and the temporary suspension/cancellation is confirmed, the College will immediately notify the Secretary of DHA via PRISMS as required under section 19 of the ESOS Act, if it wishes to temporarily suspend, or permanently cancel (terminate) the student's enrolment, (as required under Section 19 of the ESOS Act) and the details will be noted on the student's computer file and electronic file. The student will also be notified in writing of the action and the reasons for the action and a copy of the student letter placed on the files and the SMS system updated.

### **DHA's Policy on Suspension and Cancellation**

If the College notifies DHA through PRISMS that a student's enrolment has been suspended for a significant period, or is to be cancelled, the student must return to his/her home country unless special circumstances (eg. serious injury), exist. While the College determines the enrolment status of the student, it is DHA who decides whether a student may remain in Australia or return home.

# Deferring, Suspending or Cancelling a Student Enrolment POLICY AND PROCEDURE

DHA's policy is that if a student's enrolment is suspended for a period of 28 days or longer, the student must return home unless special circumstances exist. Therefore, the College must refer any questions about whether a student must remain in Australia during a period of suspension to DHA.

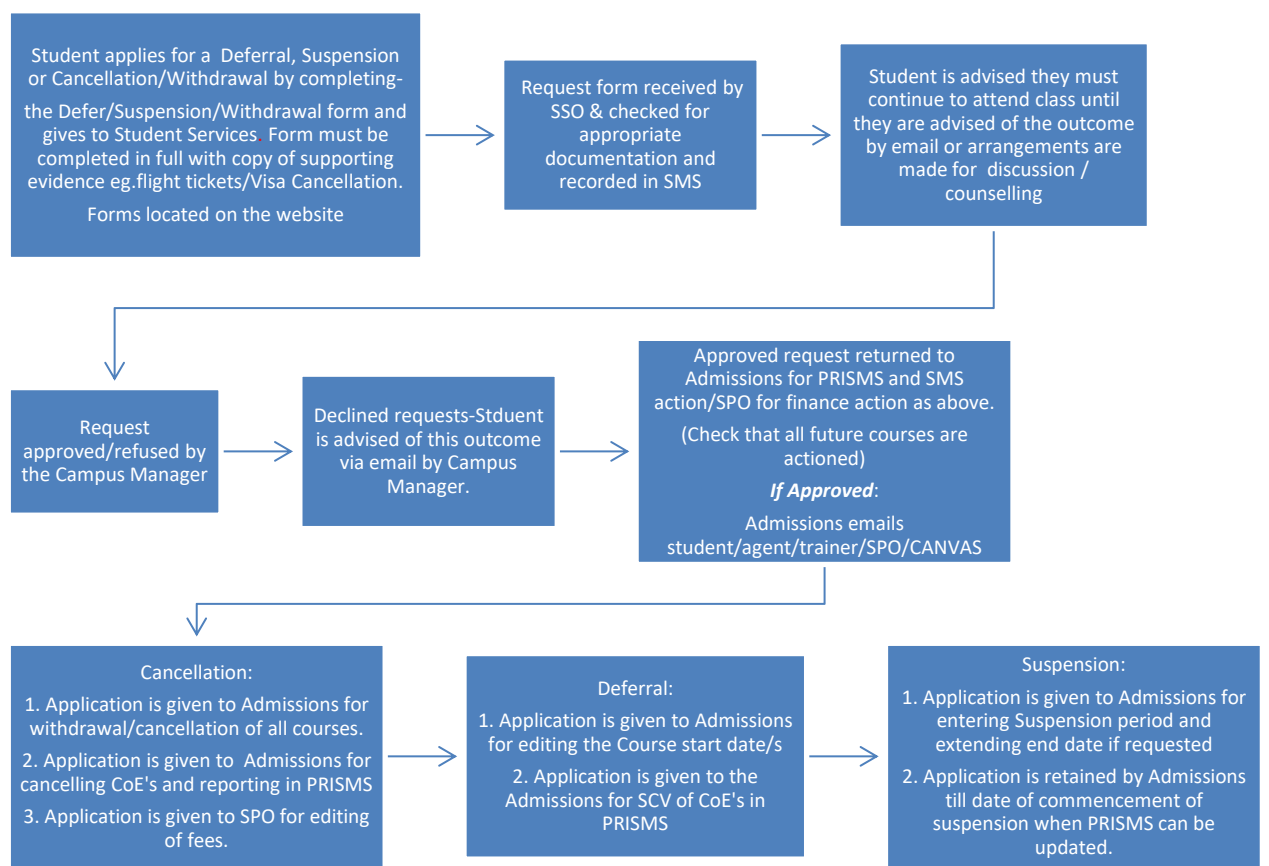

**Refund of Fees:**

If appropriate, a refund of the balance of fees would then take place in accordance with the terms and timelines of the College's Refund Policy. Where College property is damaged, or the College has been seriously inconvenienced, a proportion of fees may be retained by the College. Generally, it is not good policy to reward serious misbehavior with a refund of fees, but where circumstances dictate it, some, or all of the student's fees may be refunded.

**Record Keeping Requirements for Deferments/Suspensions/Cancellations:**

The College will keep accurate records of all deferments/suspensions/cancellations. Each step in the process will be documented by the Student Services/Administration/Enrolments and Student Payments Officer and held for at least two years in the student's electronic file and as a notation in the files of the computerised Student Admin (SMS) Database.
